PRODUCT PROPERTIES / APPLICATION AREA:

STEPHALEN® OPTIWASH is a perfume- and fragrance-free shower gel for the removal of light and medium dirt which is suitable for gentle cleansing of the entire body - especially for sensitive skin - as well as for hair wash. The hydrolyzed rice protein contained in STEPHALEN® OPTIWASH has a nourishing effect and makes the hair easier to comb. STEPHALEN® OPTIWASH is HACCP-compliant and can be used safely for personal hygiene in the food industry in consideration of the respective application instructions.

STEPHALEN® OPTIWASH is based on the innovative, patent-registered surfactant combination OptiTens® which has been developed in collaboration with scientists from the Institute for Interdisciplinary Dermatological Prevention and Rehabilitation at the University of Osnabrück (IDerm) and shows clearly that a systematic combination of surfactants is possible that is both powerful and particularly skin-friendly at the same time. Thus, the new development is a major relief for all those employees who are permanently exposed to severe skin strains, e.g., because they often have to wash their hands.

APPLICATION:

Apply STEPHALEN® OPTIWASH evenly on the dry skin. For normal dirt, a small amount is sufficient. A proportionally bigger amount is required for hair wash or cleansing the entire body. Continue washing adding little water. Rinse off with plenty of water afterwards and dry hands thoroughly.
