Healthy Skin. Safe Work.

Application Area

GREVEN® SOFT U ECO is especially suitable for the removal of heavy and extreme dirt e.g. from grease, oil, metallic dust, graphite or soot.

Product Description

GREVEN® SOFT U ECO is a hand cleanser containing natural scrubbing agents made of olive seed powder. The product is adapted to the natural pH-value of the human skin and is free from soaps or solvents.

Product Properties

- The formulation of GREVEN® SOFT U ECO almost perfectly combines high cleansing power, good skin compatibility and environmental soundness.
- In this regard, the surfactant combination is a highly contributing factor. The surfactants contained are very mild and produced from sustainable sources; they improve the skin compatibility of the product considerably.
- The cleansing effect of the product is supported by olive seed powder, whose grain structure and grain fineness is especially adapted to this type of use. Due to its low specific weight, blockages of drains and pipes are not to be expected.
- The rape seed oil contained supports the cleansing power of the product and helps to prevent skin irritation due to its lipid-balancing effect.
- The pH-value of the product has been adapted to the natural acid mantle of the human skin, which in its functions is not affected by the product.
